

Nelson Family Mortuary Opens in Provo, Utah

Nelson Family Mortuary Chapel

Lance Nelson in Preparation Room

PROVO, UT— **Nelson Family Mortuary** celebrated with a grand opening on October 6, 2015 in Provo, UT. **Lance Nelson**, and his wife, **Tiffany**, welcomed guests to the new contemporary design funeral home, which displays a magnificent view of Mt. Timpanogos, the second highest mountain in the Wasatch Range.

A first generation funeral director, Nelson was born and raised on a cattle ranch in Idaho. He became interested in the death care profession at age 12 when he and his father operated a cemetery. Nelson Family Mortuary is a result of years of research and planning to create a higher standard of funeral care.

The modern structure is light, bright and comforting. A 15 foot high glass wall extends the entire length of the chapel, framing the mountain vista. A nearby private garden is a place for families to gather and mourn or meditate. **Guilford Rand** of **Architectural Coalition** in Springville,

UT designed the funeral home to employ certain traditional forms and to preserve the intimacy of a residential environment.

Adding to the success of the building project, Nelson called on **Duncan Stuart Todd, Ltd**, the preparation room specialist, to design and equip the preparation room which he appreciates first and foremost for the air quality. “I had been sick working in other embalming rooms and now the odor and fumes are non-existent, allowing me to perform a higher quality of service,” said Nelson. Interior features also include a state-of-the-art audio visual technology which was open to visitors during the open house tour. One of the amenities offered is real time online broadcasting of funeral services held in the chapel, allowing those who cannot physically travel to attend online.

Nelson Family Mortuary is located at 4780 North University Avenue, Provo, UT 84604. Visit www.nelsonmortuary.com for more information.
