

TECHNICAL INFORMATION

MEDICAL GRADE FLOORING

DST 600

Duncan Stuart Todd, Ltd. offers seamless medical grade flooring for superior performance in the embalming room. Homogeneous construction delivers the ultimate in durability, resilience and resistance to static and rolling loads.

FEATURES

Protective urethane finish offers increased scuff resistance

Includes weld rod for seaming

Includes both flooring and cove adhesives

Tested 750 PSI rating floors resist indentation from heavy static loads

Superior gouge-resistance created by 0.080 inch wear layer

Certified for low VOC (volatile organic compound) emissions

Cove, J-mold and other trim pieces are not included and must be supplied by the installer

Color selections available from the DST Interior Elements color palettes
