

DUNCAN STUART TODD CUSTOM CABINETS

Duncan Stuart Todd, Ltd. offers custom cabinets and countertops designed specifically for the preparation room and built to meet the needs of the embalmer.

Cabinet designs are tailored to each project. In addition to standard base and wall cabinets, we offer the following custom features:

CUSTOMIZATION

Specialty instrument drawers.

Trash compartments.

Built-in desk and computer stations.

Soiled linen cabinets.

Biohazard cabinets.

Slide-out shelves.

EZ-Roll carts for hardening agent tubs.

FEATURES

Countertops and backsplashes are constructed of solid surface material for superior moisture and stain resistance.

Cabinet interiors are plywood core, backed on both sides with melamine for strength and moisture resistance.

Doors and door fronts are medium density fiberboard (mdf) with plastic laminate for excellent flatness and surface uniformity.

Door faces are laminated in your choice of standard finishes.

Pre-cut mounting holes for Duncan Stuart Todd, Ltd. supplied equipment make installation easy and avoid costly errors.

All cut-outs and exposed edges are sealed.
